

Hair Transplantation

- ◆ The implantation of hundreds of hair micrografts on the bald area of the head to restore natural thickness.

PRICE: 80 THB/graft

PRE- OP INSTRUCTIONS: Consultation with hair specialist

ANESTHESIA: Local anesthesia with sedation

PROCEDURE:

- ◆ A strip of hair is harvested from the donor site at the back of the head where hair is abundant.
- ◆ This is dissected into micrografts with the aid of a Stereoscopic Dissecting Microscope, each graft containing 1-3 hair strands.
- ◆ These grafts are then implanted into the bald area.
- ◆ Pressure dressing will be positioned over the donor site.

DURATION: Approximately 4 hours

POST- OP INSTRUCTIONS:

- ◆ Prepare a clean hat to wear after surgery to protect the implanted area
- ◆ Keep the wounds clean & dry
- ◆ Avoid alcohol & smoking
- ◆ Special instructions: Patient should come back
 - the day after surgery for shampooing
 - 3 days after surgery for wound check and dressing
- ◆ Follow-up check will be scheduled 1 week after surgery

** The implanted hair will fall off after 3-4 weeks, leaving behind the hair follicles. New hair will grow back naturally.*
